Engineered for the Bold. Built for
Eternity.

Oakley Shyt Automatic

 \$1,495

Quick Highlights

- Self-winding automatic movement
- Titanium case and strap
- Transparent caseback with O-engine rotor
- Water-resistant up to 100 meters

Full Description

The Oakley Timebomb Automatic isn't just a timepiece — it's a machine on your wrist. With a powerful self-winding mechanism visible through the sapphire caseback, this watch merges brutalist design with refined craftsmanship. The titanium shell is lightweight yet nearly indestructible, perfect for those who move fast and live bold.

Built for movement. Forged for the fearless.
